

Switching Address Quality Plan Development and Consultation Timeline (Validity Period Financial Year 2024-2025)

The REC sets out certain obligations on DCC as Switching Operator in relation to meeting the REC Address Quality Objective. Those obligations include developing a plan for address quality improvement over the next following Financial Year. In preparing the plan, the REC requires a consultation is undertaken with Market Participants and other interested parties. Prior to initiating that consultation, the Switching Operator must:

“provide in advance a timeframe for consultation, and the Code Manager shall publish the consultation timeframe on the REC Portal”

This document is the planned timeframe for the consultation on the Address Quality Plan which will be effective for the Financial Year commencing April 2024.

The consultation itself will be made available by the Code Manager on the REC Portal.

Key Dates

15 December 2023	Address Quality Plan Consultation Period Start
31 January 2024	Address Quality Plan Consultation Period End
29 February 2024	Address Quality Plan and supplementary report provided to REC PAB and Code Manager
