### **SCHEDULE 32**

## **Electricity Supply to Hydrogen Electrolysers**

Version: 1.0 Effective Date: 28 June 2024

Domestic Suppliers	N/A
Gas Non-Domestic Suppliers	N/A
Electricity Non-Domestic Suppliers	Mandatory
Gas Transporters	N/A
<u>Distribution Network Operators</u>	N/A
DCC	N/A
Metering Equipment Managers	N/A
Non-Party REC Service Users	N/A

Version Number	Implementation Date	Reason for Change
1.0	28 June 2024	Initial version for Change
		Proposal R0160

#### 1 Introduction

1.1 This <u>REC Schedule</u> sets out obligations on <u>Electricity Suppliers</u> in respect of their electricity supplies to <u>Low Carbon Hydrogen Producers</u>. The purpose of these obligations is to ensure that the <u>LCHA Counterparty</u> has access to the data it needs to perform its role as such in relation to <u>Low Carbon Hydrogen Agreements</u>.

#### 2 Disclosure to <u>LCHA Counterparty</u>

- 2.1 Each Electricity Supplier who is (or was) from time to time the supplier of electricity to a Low Carbon Hydrogen Producer shall provide to the LCHA Counterparty such information relating to that electricity as the LCHA Counterparty may from time to time request.
- 2.2 In particular, where an <u>Electricity Supplier</u> is (or was) supplying electricity to a <u>Low Carbon Hydrogen Producer</u> under an <u>Energy Contract</u> which the supplier and the producer intend to be an Eligible PPA (as defined in the <u>Low Carbon Hydrogen Standard</u>), then the <u>Electricity Supplier</u> shall:
  - (a) provide to the <u>LCHA Counterparty</u> the information which the <u>Low Carbon Hydrogen Producer</u> and/or the <u>Electricity Supplier</u> are required to provide to the <u>LCHA Counterparty</u> in order for the <u>Energy Contract</u> to constitute an Eligible PPA; and

(b) permit the <u>LCHA Counterparty</u> and/or an Auditor (as defined in the <u>Low Carbon Hydrogen Agreement</u>) to audit the information relating to such electricity supply in accordance with the requirements of the relevant <u>Low Carbon Hydrogen Agreement</u>.
