## Market Entry Engagement Drop-in Session

MEMs

DNOs

Suppliers

The REC Code Manager is hosting a Market Entry Engagement Drop-in Session on **11 July 2024** (10:00 - 11:00). This event will be an open drop-in session where anyone is welcome to ask questions regarding the general Market Entry process under the REC, or questions specific to their application. To learn more information and register your interest, click [here](#).

## RECCo's Countdown to MHHS Webinar

MEMs

DNOs

Suppliers

RECCo is hosting a Countdown to MHHS webinar for all REC Parties on **18 July 2024** (11:30 - 13:00). The webinar will cover the key consequential changes and activities that all REC Parties need to take in relation to the REC before MHHS goes live in **March 2025**. For more information and to register your interest click [here](#).

## R0182 - Levelisation Reconciliation Update Webinar

MEMs

DNOs

Suppliers

The Code Manager is hosting a R0182 - Levelisation Reconciliation Update Webinar on **25 July 2024** (10:30 - 12:00) in which topic areas such as the data requirements, the R0182 Change Proposal and solution overview will be discussed. To learn more information and register your interest, click [here](#).

## REC Portal Release Update

MEMs

DNOs

Suppliers

This week, a number of improvements were released into the REC Portal to improve usability and performance.

Within the Change Management area, we have made it easier to find information about REC Change Issues. Portal Users now have the ability to filter the Change Register to view Issues or Change Proposals, the Change Register includes all Change Proposals and Issues sorted by creation date, and there are updates to the statuses assigned on Change Proposal Pages.

Within the Performance Assurance area, corrections have been made to a file upload error message that did not provide accurate information about why a file had failed validation. Finally, improvements have been made to optimise system stability.

We always welcome your feedback about the REC Portal. You can email [enquiries@recmanager.co.uk](mailto:enquiries@recmanager.co.uk) to get in touch.

## Data Cleanse Report Categorisation

DNOs

Suppliers

At its meeting in June 2024, the PAB approved an update to the methodology for Data Cleanse activity and how the Code Manager will track specified reports with different approaches based on the assessment of risk. The approaches - and the reports subject to each approach - are illustrated below:

Approach and Description	Reports
<p><b>Sprint:</b> A sprint approach is followed in order to focus effort on prioritised issues, to manage the risk of such issues being transferred on switching.</p> <p>Data cleanse targets are set by PAB for Parties to meet. If Parties do not meet targets, appropriate Performance Assurance Techniques (PATs) will be agreed by PAB.</p>	<ul style="list-style-type: none"><li>• Energised No Meter</li><li>• Invalid Electricity MAP ID</li></ul>
	<ul style="list-style-type: none"><li>• 3A Unflagged</li><li>• Unrestricted SSC/Active Relationship Flag</li><li>• Report AR3A – All MTC's in Unrelated Range</li></ul>

## MHHS Consequential Change – Market Message updates

MEMs

DNOs

Suppliers

The MHHS Consequential Change solution for REC-owned Market Messages requires updating following MHHS Design updates and code drafting for definitions under Schedule 1. The updates, to seven Market Messages, have been shared on the 04 July 2024 (Ex-Committee) folder on the [MSAG Committee page of the REC Portal](#). The updated Market Messages are:

- D0126 (MM00016) - Asset Condition Report Response / Clearance
- D0139 (MM00036) - Confirmation or Rejection of Energisation Status Change
- D0149 (MM00047) - Notification of Mapping Details
- D0150 (MM00051) - Non Half-hourly Traditional Meter Technical Details
- D0300 (MM00231) - Disputed Readings or Missing Readings on Change of Supplier
- D0303 (MM00240) - Notification of Meter Operator, Supplier and Metering Assets installed / removed by the MOP to the MAP
- D0311 (MM00254) - Notification of Old Supplier Information

Parties are invited to review the documents by 17:00 on **11 July 2024**, if you have any questions or comments, please contact [committees@recmanager.co.uk](mailto:committees@recmanager.co.uk), cc. [mhhs@retailenergycode.co.uk](mailto:mhhs@retailenergycode.co.uk).

## Theft Detection Incentive Scheme 2023/24 End of Year action

Suppliers

As a reminder the confirmed theft figures for Theft Year 2023/24 were published on the Performance Assurance Dashboard on 18 June 2024.

The deadline of **18 July 2024** is approaching to take action and either review confirmed thefts and provide a positive confirmation they are correct or to raise a query by emailing [enquiries@recmanager.co.uk](mailto:enquiries@recmanager.co.uk).

After the deadline has passed, there will be no further opportunities to provide feedback on your confirmed thefts.

Following the deadline, all confirmed theft figures will be used for Debit/Credit calculations which will be published on the Performance Assurance Dashboard by **22 August 2024**.

Additional information on timelines can be found in the [Theft Detection Incentive Scheme \(TDIS\) Reporting Timeframe](#).

## REC Accessions

MEMs

DNOs

Suppliers

The following organisation has acceded to the Retail Energy Code in accordance with the REC Main Body Clause 3 and is now a Party to the Code:

Organisation	Party Type	Company Number	Date Acceded
Eco Approach Ltd	MEM	13586038	26/06/2024

For the latest updates on REC Party Accessions and Withdrawals, please see the [REC Party Register](#).

## RECCo's Enquiry Services Stakeholder Advisory Group

MEMs

DNOs

Suppliers

RECCo is looking for industry stakeholders to join their new Stakeholder Advisory Group (SAG) as they evolve the Enquiry Services who can offer guidance, diverse perspectives, and insights from experienced service users throughout the lifecycle project.

The Enquiry Services are essential tools that enable the retail energy market to operate efficiently which include:

- The Electricity Enquiry Service
- The Gas Enquiry Service
- The Secure Data Exchange Portal and;
- The Green Deal Central Charge Database

Please note that nominations will close on **12 July 2024**. Submit your nomination [here](#) and find out more on the [RECCo website](#).

## REC Committees

MEMs

DNOs

Suppliers

Within the past week, the Code Manager has published the below REC Committees documentation on the REC Portal.

- [Final Minutes](#) have been published following the REC Change Panel on **18 June 2024**.
- [Draft Minutes](#) have been published following the Technical Expert Panel on **26 June 2024**.
- [Draft Minutes](#) have been published following the Theft Issues Group on **26 June 2024**.
- [Headline Report](#) has been published following the REC Change Panel on **02 July 2024**.
- [Agenda and Papers](#) have been published ahead of the Metering Expert Panel on **10 July 2024**.
